AT THE LAB

Biology Teaching Lab, 11b
Mansfield Road, OX1 3SZ

11:00–12:30	MEET & GREET
11:00–12:30	OPEN LAB

Meet & Greet

An opportunity to meet with current Biology students and hear about their experience on the course, as well as college tutors who can help explain what you can expect from studying Biology at Oxford. This is a casual session where you have a chance to hear what makes this course so interesting.

Talks: Course, Admissions, & Careers

Hear about the exciting course modules across the years and the classes, labs, and field trips to expect. We'll also cover the admissions process and the potential careers that biology can take you to.

Demo Interview

There are lots of myths about interviews at Oxford, but they're really just conversations about a particular subject. Join our demonstration interview to see what it is like and what kind of questions you can expect.

Open Lab

Come along to our teaching lab to see the facilities and find out about the kind of lab practicals you might complete.
